

# OverDrive Updates

For WPLC Steering Committee, May 2016

## New Language in Email Notifications

Language in the OverDrive email notifications for available holds was changed slightly to clear up confusion that some patrons were having. Libraries reported patrons who only used the OverDrive app and received this notification believed that they would need to go to their library's website, outside of the app to access their book.

Old: "Sign into the **Digital Library website** to access"

New: "Sign into the **library's digital collection** to access"
